# Subject Index to Volume 226 (July–December 1997)

## A

Abdominal aortic aneurysm, modular bifurcation endoprosthesis for, 381
Abdominal pain, chronic pancreatitis, pancreaticoduodenectomy for, 429
Academic health center, surgeons' differential workloads, 336
Adenocarcinoma, esophagus and cardia, Barrett's esophagus and, 725
Adenoma
  familial adenomatous polyposis, ileal pouch-anal canal anastomosis for, 514
  laparoscopic adrenalectomy, 239
  periampullary, pancreaticoduodenectomy, 248
Adrenalectomy, laparoscopic, 238
Age/aging
  atrial fibrillation after cardiac surgery, 501
  failure of Kasai portoenterostomy for biliary atresia, 348
AIDS (acquired immune deficiency syndrome). *See* HIV/AIDS
Alpha-fetoprotein, peripheral blood, circulating micrometastatic foci of hepatocellular carcinoma and, 43
American Surgical Association, Presidential Address: science, specialization, and the American Surgical Association, 211
Amniotic fluid, sodium and chloride concentrations, intrauterine tracheal obstruction and (lamb), 753
Amylase, serum level, in blunt injury to pancreas, 70
Anastomosis
  esophageal, true primary repair for esophageal atresia, 533
  esophagogastric, hand-sewn vs. stapled, 169
  ileal pouch-anal canal anastomosis, for familial adenomatous polyposis, 514
  leak, after pancreaticoduodenectomy, perioperative octreotide and, 632
Anesthesia, local, hernioplasty (*letter*), 113
Aneurysm. *See* Aortic aneurysm
Angiography, selective visceral, staging of pancreatic/periampullary tumors, 393
Anorectal disease, HIV-associated, surgical wound healing in, 92
Antireflux surgery
  new approach for Barrett's esophagus, 123
  reoperation in children with recurrent gastroesophageal reflux, 315
Aortic aneurysm
  abdominal, modular bifurcation endoprosthesis for, 381
  extensive, staged repair via elephant trunk technique, 599
  thoracoabdominal, clamp-and-sew repair, 10-year perspective, 294
Aortic valve, minimally invasive replacement/repair, 421
Appendicitis, acute, Tc-99m-HMPAO leukocyte imaging, 58
Arcitumomab (CEA-Scan), resectability of colorectal cancer, 621
Atresia
  biliary, Kasai portoenterostomy for, risk factor analysis, 348
  esophageal, true primary repair for, 533
Atrial fibrillation, after cardiac surgery, 501
Axillary dissection, breast cancer, impact on adjuvant systemic therapy, 279

## B

Barrett's esophagus
  adenocarcinoma of esophagus and cardia and, 725
  new surgical procedure, 121, 123
Bigelow, Henry Jacob, 146
Bigelow, William Sturgis, 146
Bigelow award, 146
Bigelow lecture, development of surgery of coronary circulation, 153
Biliary atresia, Kasai portoenterostomy for, risk factor analysis, 348
Biliary tract
  bile duct cancer, effect of early postoperative enteral feeding with immune-enhancing formula, 567
  common duct cancer, pancreaticoduodenectomy, 248
  common duct stones, preoperative screening with infusion cholangiography, 174
Blalock, Alfred, 211
Blood loss, during hepatectomy, prospective evaluation of Pringle maneuver, 704
Blood pressure, systolic, resting, atrial fibrillation after cardiac surgery, 501
Bone marrow, bone marrow micrometastases in gastric cancer, prognostic value, 736
Book reviews, 100, 207, 662
Boston Surgical Society Bigelow Award, 146
Brain, protection, during aortic aneurysm repair, 599
Breast cancer
  axillary dissection, impact on adjuvant systemic therapy, 279
  axillary metastasis, sentinel lymph node hypothesis, 271
  simultaneous bilateral breast reconstruction with transverse rectus abdominis musculocutaneous free flap, 25

## C

Cancer. *See also specific organs*
  immunotherapy, dendritic cells for, 1, 6

Carbon dioxide, effect on peritoneal macrophage cytokine release (mice), 179
Carcinoembryonic antigen, Arcitumomab in determination of resectability of colorectal cancer, 621
Carcinogenesis, activating K-ras mutations in intraductal papillary mucinous tumors of pancreas, 491
Carcinoma. *See specific organs*
Cardiovascular disorders
  atrial fibrillation after cardiac surgery, 501
  cardiac mass and function in critically ill, effect of massive nitrogen loss, 191
  implantable left ventricular assist device, 461
  minimally invasive cardiac valve replacement/repair, 421
  surgery of coronary circulation, development of, 153
Carditis, carditis and intestinal metaplasia of cardiac mucosa at normal-appearing gastroesophageal junction in gastroesophageal reflux disease, 522
Carrel, Alexis, 211
Cellular priming, adaptive and maladaptive mechanisms, 587
Chemoembolization, preoperative transarterial Lipiodol chemoembolization in liver resection/transplantation for hepatocellular carcinoma, 688
Chemotherapy, in locally advanced esophageal cancer, 714
Chloride, amniotic and tracheal fluid concentrations, intrauterine tracheal obstruction and (lamb), 753
Cholangiocarcinoma, hilar vs. intrahepatic (*letter*), 107
Cholangiography, infusion cholangiography in laparoscopic cholecystectomy, 174
Cholangiopancreatography, endoscopic, staging of pancreatic/periampullary tumors, 393
Cholecystectomy
  cytokine and hormonal responses after (*letter*), 110
  laparoscopic, preoperative infusion cholangiography in, 174
Chronic obstructive pulmonary disease, atrial fibrillation after cardiac surgery, 501
Circulatory assistance, implantable left ventricular assist device, 461
Cirrhosis, hepatitis B, liver transplantation for, long-term survival using pretransplant IFN-$\alpha$2b and posttransplant hepatitis B immunoglobulin, 356
Colorectal cancer
  hepatic metastases
    can clinical assessment predict prognosis (*Editorial*), 581
    prognostic value of macroscopic classification, 582
  resectability status, Arcitumomab and CT scan in, 621
  risk in familial adenomatous polyposis, ilealpouch-anal anastomosis and, 514
Computed tomography
  Arcitumomab plus, determination of resectability of colorectal cancer, 621
  dual-phase helical, staging of pancreatic/periampullary tumors, 393
Constructive priming, 587
Coronary artery bypass
  cutaneous closure after, intradermal suture vs. staple technique, 606
  historical development, 153
Critical illness, massive nitrogen loss in, effect on cardiac mass and function, 191
Crypt cell antigen, in Barrett's esophagus and adenocarcinoma of esophagus and cardia, 725
Cushing's disease, laparoscopic adrenalectomy, 239
Cyclin(s), in gastric cancer biopsy specimen, prognostic value, 35
Cystadenocarcinoma, pancreaticoduodenectomy, 248
Cystadenoma, pancreaticoduodenectomy, 248
Cytokeratin immunohistochemistry, axillary breast cancer metastasis, sentinel lymph node hypothesis, 271
Cytokine(s)
  after cholecystectomy (*letter*), 110
  peritoneal macrophage release, $CO_2$ exposure and (mice), 179
  plasma level, in sepsis, IL-1 mediation of, 77

## D

Deep vein thrombosis, prophylaxis, intermittent pneumatic compression, 306
Dendritic cells, for cancer immunotherapy
  *Editorial*, 1
  generation *in vitro* from peripheral blood mononuclear cells, 6
Destructive priming, 587
Diabetes mellitus, type I, simultaneous pancreas-kidney transplantation from live donors, 471
Diaphragmatic hernia, congenital, intrauterine tracheal obstruction, 666
Diet, pharmacologic bowel compensation, 288
Digoxin, preoperative use, atrial fibrillation after cardiac surgery, 501
Dudrick, Stan, 211
Duodenal cancer, pancreaticoduodenectomy, 248
Duodenal switch procedure, for Barrett's esophagus, 123
Dysphagia, postoperative, short vessel division in laparoscopic Nissen fundoplication and, 642

## E

Economic issues, cost-effectiveness of laparoscopic inguinal hernia repair, conventional herniorrhaphy vs., 668
Editorial
  can clinical assessment predict prognosis after liver metastasis, 581
  getting to the source: dendritic cells as therapeutic reagents for treatment of patients with cancer, 1
  new approach for surgical treatment of Barrett's esophagus, 121
Eicosanoids, plasma level, in sepsis, IL-1 mediation of, 77
Elephant trunk technique, staged repair of extensive aortic aneurysm, 599
Embolization, preoperative transarterial Lipiodol chemoembolization in liver resection/transplantation for hepatocellular carcinoma, 688
Enteral feeding
  effect of cyclic vs. continuous enteral feeding on gastric function after pylorus-preserving pancreatoduodenectomy, 677

effect of immediate postoperative jejunal feeding on muscle strength, respiratory mechanics, and postoperatve mobility, 369
immune-enhancing formula, early enteral feeding after resection of upper GI malignancy, 567
Erratum(a), 114
Esophageal atresia, true primary repair for, 533
Esophageal cancer
Barrett's esophagus and adenocarcinoma of esophagus and cardia, 725
effect of early postoperative enteral feeding with immune-enhancing formula, 567
esophagogastric anastomosis, hand-sewn vs. stapled, 169
locally advanced, results of first-line chemotherapy, 714
survival, genetic alterations and survival rates, 162
Esophagus, Barrett's. *See* Barrett's esophagus
European Surgical Association, Presidential Address: research and surgery, 666
Extracorporeal life support, acute respiratory failure in adult patient, 544

## F

Fibrinolysis, effect of intermittent pneumatic compression, 306
Fistula, pancreatic, after pancreaticoduodenectomy, perioperative octreotide and, 632
Flap surgery, simultaneous bilateral breast reconstruction with transverse rectus abdominis musculocutaneous free flap, 25
Forced expiratory volume in one second, postoperative, effect of immediate postoperative jejunal feeding, 369
Fundoplication
Nissen. *See* Nissen fundoplication
tension-free (*letter*), 109

## G

Gastrectomy
ileocolon interposition as substitute stomach after total/proximal gastrectomy, 139
total vs. subtotal, postoperative morbidity and mortality, 613
Gastric cancer
effect of early postoperative enteral feeding with immune-enhancing formula, 567
extended biological staging system, bone marrow micrometastases and tumor-associated proteases, 736
prognostic value of tumor growth-related gene expression in biopsy specimens, 35
Gastric emptying
delayed, after pylorus-preserving pancreatoduodenectomy, effect of cyclic vs. continuous enteral feeding, 677
ileocecal segment transposition for rectal replacement and, 746
Gastroesophageal reflux
carditis and intestinal metaplasia of cardiac mucosa at normal-appearing cardia in, 522
recurrent, reoperation in children after failed Nissen fundoplication, 315
Gastrointestinal cancer, upper tract, effect of early postoperative enteral feeding with immune-enhancing formula, 567
Genetics
activating K-ras mutations in intraductal papillary mucinous tumors of pancreas, 491
alpha-fetoprotein mRNA in peripheral blood, circulating micrometastatic foci of hepatocellular carcinoma, 43
genetic alterations and survival rates in esophageal cancer, 162
Gibbon, John H., Jr., 211
Glutamine, pharmacologic bowel compensation, 288
Granulocyte-macrophage colony-stimulating factor (GM-CSF), generation of dendritic cells *in vitro* from peripheral blood mononuclear cells, 6
Growth hormone, pharmacologic bowel compensation, 288

## H

Handgrip strength, effect of immediate postoperative jejunal feeding, 369
Heartburn, postoperative, short vessel division in laparoscopic Nissen fundoplication and, 642
Hemorrhage
gastrointestinal, technetium-labeled erythrocyte scintigraphy in lower GI hemorrhage (*letter*), 112
in hepatectomy, prospective evaluation of Pringle maneuver, 704
variceal, shunt surgery in, 51
Hemorrhagic shock, blood vs. saline resuscitation, $^{31}P$ magnetic resonance spectroscopic study (rat), 653
Hepatectomy
for hepatocellular carcinoma, preoperative transarterial Lipiodol chemoembolization in, 688
Pringle maneuver in, blood loss and liver function and, 704
Hepatitis B, liver transplantation for, long-term suvival using pretransplant IFN-$\alpha$2b and posttransplant hepatitis B immunoglobulin, 356
Hepatocellular carcinoma. *See* Liver cancer
Hernia
congenital diaphragmatic hernia, intrauterine tracheal obstruction, 753
inguinal, laparoscopic repair, cost-effectiveness, 668
Hernioplasty, local anesthesia (*letter*), 113
Herniorrhaphy, laparoscopic inguinal hernia repair vs. conventional herniorrhaphy, cost-effectiveness, 668
Hexamethylpropyleneamine oxime (HMPAO), Tc-99m-HMPAO leukocyte imaging in atypical appendicitis, 58
Historical perspectives
science, specialization, and the American Surgical Association, 211
surgery on coronary circulation, 153
HIV/AIDS, anorectal surgery, wound healing in, 92
Hormones, after cholecystectomy (*letter*), 110
Hospital stay
after pylorus-preserving pancreatoduodenectomy, effect of cyclic vs. continuous enteral feeding, 677
hepatic retransplantation, 408
Huggins, Charles, 211
Human immunodeficiency virus. *See* HIV/AIDS
Hypothermia, in trauma patient, protective/harmful effects, 439

I

Ileal pouch-anal canal anastomosis, for familial adenomatous polyposis, 514
Ileocecal reservoir, ileocecal segment transposition for rectal replacement, whole gut transit and, 746
Imaging studies
  infusion cholangiography in laparoscopic cholecystectomy, 174
  $^{31}P$ magnetic resonance spectroscopy, blood vs. saline resuscitation in hemorrhagic shock (rat), 653
  Tc-99m-HMPAO leukocyte imaging in atypical appendicitis, 58
  technetium-labeled erythrocyte scintigraphy in lower GI hemorrhage (*letter*), 112
  ultrafast MRI in staging of pancreatic/periampullary tumors, 393
Immunoglobulin(s), hepatitis B, in liver transplantation for HBV cirrhosis, 356
Immunosuppression, postinjury, IL-10 production and, 450
Immunotherapy
  dendritic cells for cancer immunotherapy, 6
    *Editorial*, 1
  efficacy of vaccinia melanoma oncolysate vaccine in surgically resected stage II melanoma, 198
  in liver transplantation for hepatitis B cirrhosis, pretransplant IFN-$\alpha$2b and posttransplant hepatitis B immunoglobulin, 356
Incision(s), minimally invasive cardiac valve replacement/repair, 421
Interferon-$\alpha$2b, in liver transplantation for HBV cirrhosis, 356
Interleukin(s)
  IL-1
    mediation of plasma cytokine and eicosanoid levels in severe sepsis, 77
    peritoneal macrophage release, $CO_2$ exposure and (mice), 179
  IL-4, generation of dendritic cells *in vitro* from peripheral blood mononuclear cells, 6
  IL-10, postinjury immune suppression and sepsis, 450
Intermittent pneumatic compression, fibrinolytic effects, 306
Intestinal rehabilitation, pharmacologic bowel compensation after massive intestinal resection, factors predicting successful outcome, 288
Intestinal transit time, ileocecal segment transposition for rectal replacement and, 746
Intestine(s)
  ileocolon interposition as substitute stomach after total/proximal gastrectomy, 139
  intussusception, adult, 134
Intestine, small, obstruction, ileal pouch-anal canal anastomosis, 514
Intussusception, adult, 134

K

Kasai portoenterostomy, for biliary atresia, risk factor analysis, 348
Kidney transplantation
  live-donor nephrectomy, open vs. laparoscopic, 483
  simultaneous pancreas-kidney transplantation from live donors, 471

L

Laparoscopy
  $CO_2$ insufflation and peritoneal macrophage cytokine release (mice), 179
  laparoscopic adrenalectomy, 238
  laparoscopic cholecystectomy, preoperative infusion cholangiography in, 174
  laparoscopic inguinal hernia repair, cost-effectiveness, 668
  laparoscopic Nissen fundoplication, short vessel division in, postoperative clinical outcomes and, 642
  live-donor nephrectomy, 483
Laryngeal nerve, recurrent, preservation, in differentiated thyroid cancer, 85
Left ventricular assist device, implantable, 461
Letters, 107
Leukotriene(s), plasma level, in sepsis, IL-1 mediation of, 77
Liver cancer
  liver resection/transplantation, preoperative transarterial Lipiodol chemoembolization in, 688
  tumor cell dissemination, alpha-fetoprotein in peripheral blood and, 43
Liver disease
  prospective evaluation of Pringle maneuver in hepatectomy for liver tumors, 704
  variceal bleeding, shunt surgery in, 51
Liver transplantation
  hepatitis B cirrhosis, long-term survival using pretransplant IFN-$\alpha$2b and posttransplant hepatitis B immunoglobulin, 356
  for hepatocellular carcinoma, preoperative transarterial Lipiodol chemoembolization in, 688
  living donor, adult-to-adult transplantation using extended right lobe grafts, 261
  retransplantation, long-term survival, 408
Lymphadenectomy, axillary, sentinel lymph node hypothesis in breast cancer, 271
Lymph nodes
  breast cancer metastasis, sentinal lymph node hypothesis, 271
  metastases, prognostic value of tumor growth-related gene expression in gastric cancer biopsy specimens, 35

M

Macrophage(s)
  peritoneal, functional effects of $CO_2$ exposure (mice), 179
  priming, adaptive and maladaptive mechanisms, 587
Magnetic resonance imaging, ultrafast, staging of pancreatic/periampullary tumors, 393
Magnetic resonance spectroscopy, blood vs. saline resuscitation in hemorrhagic shock (rat), 653
Maximal inspiratory pressure, postoperative, effect of immediate postoperative jejunal feeding, 369
Melanoma, survival, efficacy of vaccinia melanoma oncolysate vaccine in surgically resected stage II melanoma, 198

Metaplasia, intestinal metaplasia of cardiac mucosa at normal-appearing gastroesophageal junction in gastroesophageal reflux disease, 522
Metastatic disease
bone marrow micrometastases in gastric cancer, prognostic value, 736
breast cancer, sentinel lymph node hypothesis, histopathologic validation, 271
circulating micrometastatic foci of hepatocellular carcinoma, alpha-fetoprotein in peripheral blood and, 43
gastric cancer, prognostic value of tumor growth-related gene expression in biopsy specimens, 35
hepatic
can clinical assessment predict prognosis (*Editorial*), 581
prognostic value of macroscopic classification, 582
Mitral valve, minimally invasive replacement/repair, 421
Mobility, postoperative, effect of immediate postoperative jejunal feeding, 369
Morbidity
atrial fibrillation after cardiac surgery, 501
cutaneous closure after cardiac operations, intradermal suture vs. staple technique, 606
early enteral feeding with immune-enhancing formula after resection of upper GI malignancy, 567
elective vascular surgery, routine pulmonary artery catheterization and, 229
hypothermia in trauma patient, 439
laparoscopic live-donor nephrectomy, 483
minimally invasive cardiac valve replacement/repair, 421
pancreaticoduodenectomy, 248
postoperative, total vs. subtotal gastrectomy, 613
simultaneous pancreas-kidney transplantation from live donors, 471
Mortality/mortality rate
atrial fibrillation after cardiac surgery, 501
early enteral feeding with immune-enhancing formula after resection of upper GI malignancy, 567
elective vascular surgery, routine pulmonary artery catheterization and, 229
genetic alterations and survival rates in esophageal cancer, 162
hypothermia in trauma patient, 439
laparoscopic live-donor nephrectomy, 483
management outcomes in splenic injury, 17
minimally invasive cardiac valve replacement/repair, 421
pancreaticoduodenectomy, 248
postoperative, total vs. subtotal gastrectomy, 613
simultaneous pancreas-kidney transplantation from live donors, 471
Murray, Joseph, 211
Muscle strength, effect of immediate postoperative jejunal feeding, 369
Myasthenia gravis, extended cervicomediastinal thymectomy in, 324

## N

Neutrophil(s), priming, adaptive and maladaptive mechanisms, 587
Nissen fundoplication
failed, reoperation in children with recurrent gastroesophageal reflux, 315
laparoscopic, short vessel division in, postoperative clinical outcomes and, 642
Nitrogen, massive loss in critically ill, effect on cardiac mass and function, 191
Nutrition
early enteral feeding with immune-enhancing formula after resection of upper GI malignancy, 567
effect of immediate postoperative jejunal feeding on muscle strength, respiratory mechanics, and postoperatve mobility, 369

## O

Obstruction
intrauterine tracheal obstruction, amniotic and tracheal fluid sodium and chloride concentrations (lamb), 753
small bowel, ileal pouch-anal canal anastomosis, 514
Octreotide, perioperative, anastomotic leak after pancreaticoduodenectomy, 632
Oncogenes
activating K-ras mutations in intraductal papillary mucinous tumors of pancreas, 491
genetic alterations and survival rates in esophageal cancer, 162
Outcomes
hepatic retransplantation, 408
management outcomes in splenic injury, 17
outcome analysis, pancreaticoduodenectomy for chronic pancreatitis, 429
pancreaticoduodenectomy, 248

## P

Pain management, chronic pancreatitis, pancreaticoduodenectomy for, 429
Pancreas, blunt injury, serum amylase level in, 79
Pancreas transplantation, simultaneous pancreas-kidney transplantation from live donors, 471
Pancreatic cancer
activating K-ras mutations in, 491
effect of early postoperative enteral feeding with immune-enhancing formula, 567
pancreaticoduodenectomy, 248
surgical resection plus intraoperative radiation therapy for, 66
Pancreaticoduodenectomy
anastomotic leak, perioperative octreotide and, 632
chronic pancreatitis, anatomic selection criteria and outcome analysis, 429
pathology, complications, and outcomes, 248
pylorus-preserving, effect of cyclic vs. continuous enteral feeding on gastric function after, 677
Pancreatic tumors
intraductal papillary mucinous tumors, activating K-ras mutations in, 491
surgical resectability, staging with ultrafast MRI, 393

Pancreatitis, chronic, pancreaticoduodenectomy, 248
anatomic selection criteria and outcome analysis, 429
Pediatric population
biliary atresia, Kasai portoenterostomy for, risk factor analysis, 348
esophageal atresia, true primary repair for, 533
recurrent gastroesophageal reflux, reoperation after Nissen fundoplication, 315
Periampullary disorders
pancreaticoduodenectomy, 248
tumors, staging with ultrafast MRI, 393
pH, peritoneal $CO_2$ insufflation-induced cellular acidification (mice), 179
Pheochromocytoma, laparoscopic adrenalectomy, 239
Plasminogen activator inhibitor-1, effect of intermittent pneumatic compression, 306
Platelet-derived growth factor-A, in gastric cancer biopsy specimen, prognostic value, 35
Polymerase chain reaction, alpha-fetoprotein mRNA in peripheral blood, circulating micrometastatic foci of hepatocellular carcinoma, 43
Polyps, familial adenomatous polyposis, ileal pouch-anal canal anastomosis for, 514
Portoenterostomy, Kasai portoenterostomy for biliary atresia, risk factor analysis, 348
Priming, adaptive and maladaptive mechanisms of cellular priming, 587
Pringle maneuver, in hepatectomy, blood loss and liver function and, 704
Prostaglandin(s), plasma level, in sepsis, IL-1 mediation of, 77
Prosthetics, modular bifurcation endoprosthesis for abdominal aortic aneurysm, 381
Proteases, tumor-associated, in gastric cancer, 736
Pulmonary hypoplasia, in congenital diaphragmatic hernia, intrauterine tracheal obstruction and, 753

## R

Radiation therapy, intraoperative, in pancreatic cancer, 66
Radionuclide studies
Arcitumomab in determination of resectability of colorectal cancer, 621
blood vs. saline resuscitation in hemorrhagic shock, $^{31}P$ magnetic resonance spectroscopic study, 653
Tc-99m-HMPAO leukocyte imaging in atypical appendicitis, 58
technetium-labeled erythrocyte scintigraphy in lower GI hemorrhage (*letter*), 112
Reconstructive surgery
ileocolon interposition as substitute stomach after total/proximal gastrectomy, 139
simultaneous bilateral breast reconstruction with transverse rectus abdominis musculocutaneous free flap, 25
Rectal cancer, ileocecal segment transposition for rectal replacement, whole gut transit and, 746
Rectus abdominis muscle, transverse musculocutaneous free flap, simultaneous bilateral breast reconstruction, 25
Research, research and surgery, 666
Respiratory failure, adult patient, extracorporeal life support for, 544
Respiratory mechanics, effect of immediate postoperative jejunal feeding, 369
Resuscitation, blood vs. saline resuscitation in hemorrhagic shock, $^{31}P$ magnetic resonance spectroscopic study (rat), 653
Reverse transcriptase-polymerase chain reaction, growth-related gene expression in gastric cancer biopsy specimens, prognostic value, 35
Rhoads, Jonathan, 211

## S

Sabiston, David C., Jr.
Bigelow lecture, 153
Boston Surgical Society Bigelow Award, 146
Sentinel lymph node hypothesis, breast cancer metastasis, histopathologic validation, 271
Sepsis
ileal pouch-anal canal anastomosis, 514
plasma cytokine and eicosanoid levels, IL-1 mediation, 77
tissue oxygen availability in (*letter*), 108
in trauma patient, IL-10 production and, 450
Sexual function, ileal pouch-anal canal anastomosis, 514
Shock, hemorrhagic, blood vs. saline resuscitation, $^{31}P$ magnetic resonance spectroscopic study (rat), 653
Shunt/shunting, in variceal bleeding, 51
Sodium, amniotic and tracheal fluid concentrations, intrauterine tracheal obstruction and (lamb), 753
Spinal cord, protection, during aortic aneurysm repair, 599
Spleen, injury, management outcomes, 17
Splenectomy
laparoscopic (*letter*), 111
management outcomes in splenic injury, 17
Splenomegaly, laparoscopic splenectomy in (*letter*), 111
Splenorrhaphy, management outcomes in splenic injury, 17
Starzl, Thomas, 211
Stomach, functional replacement after total/proximal gastrectomy, ileocolon interposition for, 139
Stricture, ileal pouch-anal canal anastomosis, 514
Sucrase-isomaltase, in Barrett's esophagus and adenocarcinoma of esophagus and cardia, 725
Surgeon, differential clinical workloads at academic health center, 336
Surgery/surgical technique. *See also specific procedures*
anorectal surgery in HIV/AIDS, wound healing, 92
Barrett's esophagus, 121, 123
clamp-and-sew technique of thoracoabdominal aneurysm repair, 10-year perspective, 294
cutaneous closure after cardiac operations, intradermal suture vs. staple technique, 606
esophagogastric anastomosis, hand-sewn vs. stapled, 169
extended cervicomediastinal thymectomy in myasthenia gravis, 324
ileal pouch-anal canal anastomosis for familial adenomatous polyposis, 514
ileocecal segment transposition for rectal replacement and whole gut transit, 746

ileocolon interposition as substitute stomach after total/proximal gastrectomy, 139
Kasai portoenterostomy for biliary atresia, risk factor analysis, 348
laparoscopic adrenalectomy, 238
laparoscopic inguinal hernia repair, cost-effectiveness, 668
living donor liver transplantation using extended right lobe grafts, adult-to-adult transplantation, 261
massive intestinal resection, pharmacologic bowel compensation after, factors predicting successful outcome, 288
minimally invasive cardiac valve replacement/repair, 421
pancreaticoduodenectomy, 248
preoperative transarterial Lipiodol chemoembolization in liver resection/transplantation for hepatocellular carcinoma, 688
prospective evaluation of Pringle maneuver in hepatectomy for liver tumors, 704
reoperation in children with recurrent gastroesophageal reflux, 315
routine pulmonary artery catheterization and morbidity/mortality of elective vascular surgery, 229
short vessel division in laparoscopic Nissen fundoplication, postoperative clinical outcomes and, 642
shunt surgery in variceal bleeding, 51
simultaneous bilateral breast reconstruction with transverse rectus abdominis musculocutaneous free flap, 25
staged repair of extensive aortic aneurysm, 599
surgical resection plus intraoperative radiation therapy for pancreatic cancer, 66
true primary repair for esophageal atresia, 533
Surgical practice patterns, effect of Tc-99m-HMPAO leukocyte imaging in atypical appendicitis, 58

## T

Thoracoabdominal aneurysm, repair, 294
Thymectomy, extended cervicomediastinal, in myasthenia gravis, 324
Thyroid cancer, differentiated, preservation of recurrent laryngeal nerve in, 85
Tissue plasminogen activator, effect of intermittent pneumatic compression, 306
T lymphocyte(s), postinjury IL-10 production and infection resistance, 450
Trachea, intrauterine tracheal obstruction, amniotic and tracheal fluid sodium and chloride concentrations (lamb), 753
Transforming growth factor-$\beta$, in gastric cancer biopsy specimen, prognostic value, 35
Transfusion therapy, blood vs. saline resuscitation in hemorrhagic shock, $^{31}P$ magnetic resonance spectroscopic study (rat), 653
Transplantation
liver. *See* Liver transplantation
simultaneous pancreas-kidney transplantation from live donors, 471
Trauma
blunt, serum amylase level and blunt injury to pancreas, 79
cellular priming, adaptive and maladaptive mechanisms, 587
hypothermia in, protective/harmful effects, 439
infection resistance, IL-10 production and, 450
splenic, management outcomes, 17
Tumor necrosis factor
peritoneal macrophage release, $CO_2$ exposure and (mice), 179
TNF-$\alpha$, generation of dendritic cells *in vitro* from peripheral blood mononuclear cells, 6

## U

Ultrasonography, staging of pancreatic/periampullary tumors, 393
Urinary tract infection, ileal pouch-anal canal anastomosis, 514
Urokinase-type plasminogen activator, in gastric cancer biopsy specimen, prognostic value, 35

## V

Vaccinia melanoma oncolysate vaccine, efficacy in surgically resected stage II melanoma, 198
Varices, bleeding, shunt surgery in, 51
Vascular surgery, elective, morbidity/mortality rate, routine pulmonary artery catheterization and, 229
Vital capacity, postoperative, effect of immediate postoperative jejunal feeding, 369

## W

Wound healing
cutaneous closure after cardiac operations, intradermal suture vs. staple technique, 606
